

**Amendment**  
**Appl. No. 09/769,388**

X is a number from 0 to 30;

Y is a number from 0 to 10;

each R<sup>1</sup> and R<sup>2</sup> is independently selected from the group consisting of alkyl moieties of from 1 to 18 carbon atoms, provided that, if X is 0, at least one R<sup>2</sup> is Z;

Z is R<sup>3</sup>OB<sub>n</sub>G;

R<sup>3</sup> is an alkylene moiety of from 1 to 4 carbon atoms;

B is an alkylene oxide moiety selected from the group consisting of ethylene oxide, propylene oxide, butylene oxide, and mixtures thereof;

n is a number from 1 to 50 if, and only if, B contains ethylene oxide, otherwise n is a number from 1 to 10; and

G is selected from the group consisting of hydrogen, hydrocarbon moieties of from 1 to 18 carbon atoms, and acetyl.

10. (Amended) The composition of claim 1 wherein the seed treatment formulation further comprises at least one ingredient selected from the group consisting of an active agent, a carrier, a surfactant, a dispersing agent, an anti-caking agent, and a foam-control agent.

**Please add the following new claims 15 through 17.**

15. (New) A composition comprising a seed treatment formulation comprising from about 0.1% to about 80% by weight of at least one active ingredient, about 10% to about 50% by weight of a carrier, about 0.1% to about 20% by weight of at least one surfactant, about 0.1%

**Amendment**  
**Appl. No. 09/769,388**

to about 30% by weight of at least one dispersing agent, at least one pigment or dye, at least one anti-caking agent, and an organosilicone additive of the formula:

wherein:

Z is  $\text{C}_3\text{H}_6\text{O}(\text{C}_2\text{H}_4\text{O})_n\text{G}$ ;

X is a number from 0 to 30;

Y is a number from 1 to 10;

n is a number from 1 to 50; and

G is hydrogen or an alkyl group of from 1 to 4 carbon atoms.

16. (New) A method for treating seeds comprising applying to said seeds a composition comprising a seed treatment formulation comprising at least one pigment or dye and an organosilicone additive of the formula:

wherein:

X is a number from 0 to 30;

**Amendment**  
**Appl. No. 09/769,388**

Y is a number from 0 to 10;

each  $R^1$  and  $R^2$  is independently selected from the group consisting of alkyl moieties of from 1 to 18 carbon atoms, provided that, if Y is 0, at least one  $R^2$  is Z;

Z is  $R^3OB_nG$ ;

$R^3$  is an alkylene moiety of from 1 to 4 carbon atoms;

B is an alkylene oxide moiety selected from the group consisting of ethylene oxide, propylene oxide, butylene oxide, and mixtures thereof;

n is a number from 1 to 50 if, and only if, B contains ethylene oxide, otherwise n is a number from 1 to 10; and

G is selected from the group consisting of hydrogen, hydrocarbon moieties of from 1 to 18 carbon atoms, and acetyl.

17. (New) The method of claim 17 wherein the formulation is a water-dispersible paste.
